

## The Only First Aid Product You Need

Argentyn 23® First Aid Gel is the world's first homeopathic silver first aid gel. Because it is effective for such a broad spectrum of minor wounds, you can now replace your over-the-counter (OTC) antiseptic cream, burn spray, calamine lotion, and acne cream with one product: Argentyn 23® First Aid Gel.

Keep one bottle in your bathroom cabinet, one in your car, and one in your purse or briefcase, so you'll always be prepared for life's little accidents.

First Aid Gel

## What Patients Are Saying About Argentyn 23® First Aid Gel

*"I got a cut on the end of my nose that would not heal, even after 2 weeks. I found your homeopathic silver gel and began to apply it a number of times during the day and in 2 days the wound healed up."*

— R.S., FLORIDA

*"I started to develop a cold sore on my lip. My cold sores usually last around a week or so. After applying the gel 3 to 4 times over a couple of days, the cold sore shrunk and disappeared."*

— DON N., OREGON

*"I went in for out-patient surgery to do a biopsy on my left breast which left a 3 inch incision. My doctor put me on Argentyn 23® gel as soon as I came back from the hospital, directly upon the wound. I repeated about 3 times per day. I was shocked at how little pain I felt the day after and how easy and quick the incision healed. I felt it was due to the amazing effects of the silver gel. I have had 2 C-sections and understand that this is major surgery, but wish I would have been able to use the gel on my incisions then."*

— KIRSTEN M., FLORIDA

### FOR BEST RESULTS

We purposely created a pure, thin gel in order to deliver maximum benefit every time you use it. Apply a liberal layer of the gel in order to allow for consistent, sustained silver delivery. Leave wet. **Do not rub until dry.** After absorption, repeat as often as needed to prolong its activity.

## The 4 Actions of Argentyn 23® First Aid Gel

For fast healing of minor cuts, scrapes, minor burns, bites, bruises, minor skin infections, and more...you need only one product: Argentyn 23® First Aid Gel.

It works in four ways to help minor wounds heal fast:

### Reduces Topical Pain

Argentyn 23® First Aid Gel reduces pain quickly, taking the sting out of skin irritations.

### Calms Minor Skin Inflammation

Argentyn 23® First Aid Gel calms minor skin inflammation, reducing the swelling, redness, and heat that often accompany minor skin wounds.

### Fights Minor Skin Infection

Argentyn 23® First Aid Gel helps the body keep minor skin infection at bay, allowing minor wounds to heal quickly.

### Promotes Healing of the Skin

By reducing topical pain, calming skin inflammation, and fighting minor skin infection, Argentyn 23® First Aid Gel helps skin recover from all kinds of minor wounds.

The perfect alternative to OTC conventional and herbal topical treatments, Argentyn 23® First Aid Gel is:

- **Kid-Friendly**†: Sting-free formula reduces topical pain, does not add to it
- **Safe**: Homeopathy has no known side effects
- **Clean & Pure**: No synthetic preservatives
- **Nongreasy, Transparent & Odorless**: You'll hardly know it's there

## Indications for Use

Argentyn 23® First Aid Gel is for relief of topical:

- Burning
- Stinging
- Itching
- Redness
- Minor inflammation
- Stiffness and pain from minor wounds
- Minor burns
- Bruises
- Ulcerations
- Sunburn
- Razor burn
- Scrapes
- Rashes
- Blisters
- Bug bites
- Skin eruptions from acne, eczema, or minor infection

†with adult supervision

## A BRIEF HISTORY OF SILVER The Forgotten Answer\*

Across the globe, for thousands of years, silver has played an essential role in safeguarding human health.\*

- The ancient cultures of Greece, Rome, Phoenicia, and Macedonia all relied on silver to keep them well.\*
- Around 400 B.C., Hippocrates, the "Father of Medicine," taught that silver supports healing processes.\*
- During the Middle Ages, upper class Europeans used silver utensils and goblets, ensuring the safety of their food and water.\*
- Silver lined the water vessels of the armies of Tsar Alexander as they fought Napoleon.
- In America's Old West, it was common practice to drop silver coins into drinking water barrels.
- As recently as the 1930s, colloidal silver was the preferred choice of physicians for empowering the immune system and supporting the body's innate healing processes.\*
- NASA uses silver in the water purification systems of the space shuttle and the international space station.

Today, as more people embrace natural ways to maintain their health and well-being, silver is experiencing a resurgence in popularity. And Argentyn 23® is leading the way, with technologically advanced silver preparations for internal and external use.

## Benefits of Argentyn 23® Bio-Active Silver Hydrosol™

To support your immune system for all of its needs,\* choose Argentyn 23® Bio-Active Silver Hydrosol™ — the #1-selling professional silver supplement in America. It has a unique combination of five benefits no other manufacturer can match:

### Actively Charged (Bio-Active)

As corroborated by a university study, Argentyn 23® contains 96% actively charged silver particles (positively charged [Ag+] silver ions), at least 55 times more powerful than other brands.

### Easily Absorbed

Argentyn 23's® unprecedented particle size of 0.0008 microns, or 0.8 nanometers (validated by Transmission Electron Microscopy), allows for easy utilization by — and excretion from — the cells and body.

### Less Is More

Our ultrasmall particle size also results in a greater silver surface area. That's why even with a low concentration of 23 ppm (parts per million), Argentyn 23® is still much more effective than brands that contain up to 1000 ppm!

### Perfectly Safe\*

Argentyn 23® is formulated to be safe for the whole family. Taken 3 times a day for 70 years, Argentyn 23® still falls below the EPA daily Oral Silver Reference Dose (RfD).†

### 99.999% Pure

Argentyn 23® has only two ingredients: silver and pharmaceutical-grade purified water. It does not contain added salts or proteins that render other silver products ineffective and possibly dangerous. Plus, it is packaged in nonleaching glass bottles.

## FOR BEST RESULTS\*

The success of silver hydrosol as the ultimate immune supplement\* depends upon correct usage. Follow the simple guidelines below to ensure your ongoing satisfaction:

**Maintenance\*:** One teaspoon, hold under tongue for 30 seconds, then swallow. Once daily.

**Immune-Building\*:** 3 times daily.

**Long-Term Immune Support\*:** 5 times daily.

**Short-Term Immune Support\*:** 7 times daily.

## What Doctors and Patients Are Saying About Argentyn 23®

**"It is without hesitation that I support and applaud Natural-Immunogenics Corp. for its safety and quality in making an excellent and pure silver hydrosol product for public use."\***

— DR. DANA FLAVIN, M.D., FORMER ASSISTANT TO THE ASSOCIATE BUREAU DIRECTOR, DIVISION OF TOXICOLOGY AT FDA.

**"Natural-Immunogenics' professional silver hydrosol is a simple and reliable solution that I regularly use to support the immune health of my patients."\***

— DR. STEPHEN HINES, N.D., HORMONAL BALANCE CLINIC, SAN ANGELO, TEXAS

**"Argentyn 23® has become a mainstay of my clinical practice whenever immune issues arise, which is often."\***

— DR. HOWARD HAGGLUND, M.D., NORMAN, OKLAHOMA

**"I have seen undeniable immediate and long-term benefits. I take Argentyn 23® everyday. It's the #1 thing in my travel kit when I trek in Europe."\***

— D. COTE, BOSTON, MASSACHUSETTS

**"I first used Argentyn 23® to help support my 5 year old's immune system. I was amazed to see how fast this product worked. I have since started using it regularly in my practice with the same type of response from my patients. This should be a primary tool in every health care practitioner's arsenal."\***

— DR. THOMAS HORNAMAN, D.C., HORNAMAN CHIROPRACTIC CENTER, UNION CITY, PA

† According to the EPA (CASRN 7440-22-4) daily Oral Silver Reference Dose (RfD) applied to 23 ppm, one may ingest 76,650 dosages safely over 70 years.

## 5 Myths About Colloidal Silver

**Myth #1: The Higher the PPM, the More Effective the Product**  
False. What makes one silver product more effective than another is not its PPM but rather its particle size. The smaller the particle, the more bio-available it becomes, and the greater the surface area available for interaction within the body.

**Myth #2: Colloidal Silver Should Not Be Clear**  
False. Pure silver colloids should be clear to a pale hue. Darker color is an indication of one or more of the following: Large particles that reflect light, compounds (salts or proteins), oxidation, or other impurities. A silver hydrosol is clear, indicating a complete dispersion of ultrafine particles of Ag+ in the purest of water.

**Myth #3: Elemental (Neutral) Particles (Ag) Are More Active than Positively Charged Silver Particles (Ag+)**  
False. Some manufacturers claim that elemental (neutral) silver particles are responsible for colloidal silver's effects. However, medical literature states that it is the free silver ions (the positively charged particles) that are active. In fact, researchers recently found that any colloidal silver's potency "is directly related to its level of silver ion (Ag+) concentration,"† noting that "Ag+ (the positive silver ion), when produced electrolytically, is the most therapeutic form of silver."†2\*

**Myth #4: Silver Will Harm My Gut Flora (Friendly Bacteria)**  
False. Taken orally as directed, Argentyn 23® will absorb very quickly in the upper gastrointestinal tract, leaving very little or none to interact with beneficial bacteria in the small and large intestines.

**Myth #5: Colloidal Silver Will Turn Me Blue**  
False. It is true that silver compounds (salts and proteins) masquerading as colloidal silver may cause argyria (a benign cosmetic skin discoloration). However, pure colloidal silver (silver hydrosol) — which is free of silver proteins, salts, and other compounds — poses no health hazard.\*

†Tien DC, et al. Colloidal silver fabrication using the spark discharge system and its antimicrobial effect on Staphylococcus aureus. Med Eng Phys. 2007 Dec 7.

‡Goetz A, Tracy RL, Harris FS. Oligodynamic effect of silver. In: Adricks L (ed.) Silver in Industry. New York: Reinhold, 1940, 402-3.

**TIP:** If a silver product has 30 ppm or more of silver, it likely contains silver compounds. AVOID!

## WHY BIO-ACTIVE SILVER HYDROSOL™ OVER ANY OTHER FORM OF SILVER?

Over the past two decades, the term "colloidal silver" has been dramatically polluted by manufacturers that produce (knowingly or unknowingly) silver products contaminated by the presence of salts, proteins, compounds, stabilizers, and oxidation — all of which serve to degrade and diminish the bio-activity of the silver.

A Bio-Active Silver Hydrosol™ represents the ultimate refinement and purity of the colloidal silver category. It is the suspension of a high content (96%) of positively charged silver ions (Ag+) in only pharmaceutical-grade purified water. This is not to be confused with ionic silver, an inferior form of neutral silver/silver salt that is in solution (dissolved) rather than in colloidal suspension. The positively charged silver ions (cations) in Bio-Active Silver Hydrosol™ remain in suspension, maintaining their fully active state for use within the body.

## PROOF OF QUALITY THROUGH TRANSMISSION ELECTRON MICROSCOPY (TEM)

The only way to truly and accurately determine particle size is through the use of an electron microscope. Natural-Immunogenics is the only silver manufacturer that owns and operates its own TEM. To date, our laboratory has analyzed over 170 commercial "colloidal silver" brands from all over the globe. The results confirm that Argentyn 23® sets the benchmark for the industry due to its unprecedented particle size, particle energy, purity, and consistency in its manufacturing processes. With Argentyn 23®, you get the same pure product batch after batch. Before buying a product claiming to be a silver hydrosol, demand photographic proof!

The above pictures were all taken at 100,000x magnification. Black areas and blotches in images 2 through 6 indicate larger silver particles or silver bound to proteins, salts, or other contaminants, which not only render the silver inactive, but also make it difficult for the body to excrete.
