

LARYNGITIS

Laryngitis is inflammation of the larynx resulting in hoarseness or loss of voice. Pain or cough may also be present. This condition may be caused by overuse of the voice, allergies, bacterial or viral infections, gastric reflux, toxic irritants such as cigarette smoke, or excessive drinking.

THERAPEUTIC GUIDE

LARYNGITIS (CONTINUED)

Una de Gato- single herb from the Amazon rainforest known for its immune supporting, antioxidant, antimicrobial, and anti-inflammatory benefits. Also known as cat's claw and available in liquid or capsules.

Yeast Formula- Amazon rainforest formula features pau d'arco, which is well known for supporting microflora balance.

Nutritionals

* **C-TR 1500**- time-released vitamin C to help the body have a long term supply of this antioxidant and immune booster.

Immunique™- blend of vitamins, minerals, and glandulars to support healthy immune function.

N-Acetyl Cysteine Plus- sulfur-containing amino acid to support glutathione production and may help the body eliminate mucus.

Zinc- chelated form of zinc to promote a healthy immune system.

Additional Considerations

Complete rest of the voice is essential. Encourage the patient to eat a liquid or soft food diet which is easier on the throat.
