

The Future of Health Care

Clinically tested formulas

Easily administered systems

Increased patient outcomes

Passive income for all practitioners

King Bio offers a plan designed to create an efficient and effective approach to resolving today's health care crisis by empowering individuals to understand their own health on a basic level, and then seek the assistance of a practitioner to achieve optimal health. SafeCare®Rx complements any professional practice or specialty, where the patient or client receives the benefits of our unique, whole-health approach.

About King Bio®

Dr. Frank King is the founder and president of King Bio in Asheville, North Carolina. Established in 1989, King Bio is a family-owned, FDA-registered pharmaceutical manufacturing company dedicated to research, development, and education of safe, natural homeopathic medicines. For more than two decades, Dr. King has discovered more than 500 natural medicines and new procedures to empower both the physician and patient in their quest for optimal health.

Dr. King is a member of the Homeopathic Pharmacopoeia Convention of the United States (HPCUS), and is a nationally recognized researcher, lecturer, and author in homeopathy. In his ongoing efforts to educate about the benefits of homeopathy, Dr. King frequently speaks at professional meetings and continuing education seminars, and has been a contributing editor to many professional publications, including *The American Chiropractor* and *Healthy and Natural*. With his long history of training and research, and his passion to develop innovative, highly efficient, and safe medicines, Dr. King has created formulas and connections that succeed in the professional community.

Physician-created and tested, evidence based formulas

No known negative side effects or contraindications with other medications

Taste-free medicine

Bio-Energetically Enhanced™ pure water base

Safe for all ages

Multiple high potencies

Long shelf life - 3 years!

Environmentally friendly packaging

Easy medically metered pump spray

“Our products and tools, combined with your procedures will forge a strong synergy that will correct acute, chronic, and genetic conditions that plague our health care system today.”

— Dr. Frank King

The Healing Revolution is here.™

Powerful potencies deliver results

In every dose of SafeCare®Rx, your patient receives the highest potencies available in Contemporary Homeopathic Medicine. Most formulas contain equal volumes of 10X, 30X, 100X, 1M, LM1, LM2, and LM3 providing communication to the body on three levels. In general, the lower potency (10x), works at the superficial levels of bodily function (i.e., skin and hair). The middle potencies (30X and 100X) work internally on the glands and organs. The higher potencies (1M - LM3) target the body's mental and emotional functions, and are even capable of correcting genetic predispositions before they become an issue.

These potency ranges and combinations have been clinically proven to provide a higher percentage of results, faster and with minimal aggravations or healing crises. Very few companies offer this comprehensive range of support with the education and clinical experience to back it up.

When you join the SafeCareRx network, you have available to you:

- High-potency, all-natural medicines
- Physician's Reference Manual with Product Guide and Repertory
- Product brochures
- Homeopathic test kits
- Personal Health Appraisal forms
- Easy website ordering
- Journal articles written by Dr. King
- Wholesale pricing
- Easy passive income potential

Our proprietary pure water base

King Bio has developed a unique and proprietary pure-water-based technology that is foundational to the great success of our medicines. Bio-Energetically Enhanced™ water allows us to put the purest medicine into a base free of sugar, gluten, dairy, alcohol, and glycerin, and combine more homeopathic ingredients at multi-potency levels creating a broader therapeutic spectrum.

Bio-Energetically Enhanced™ water starts with a comprehensive system that cleans and purifies the water to a level ten-times cleaner than distilled water. After going through 38,000 gauss magnetic tubes that remove the negative energy and memory the water has stored, our homeopathic formulas are more resistant to possible antidotes, such as low-level radiation and chemicals. It is further enhanced with proprietary vibrational frequencies which travel to the source of the issues addressed by our condition-specific formulas.

Since Bio-Energetically Enhanced™ water is pure, your patients have the option to use three different delivery methods from the same bottle: oral, topical, and olfactory, which allow for greater patient outcomes.

Homeopathic medicines

are the first natural remedies recognized by the FDA as pharmaceutical products. Throughout 200 years of clinical use, homeopathic medicines have NO recorded negative side effects and NO negative interactions with other drugs. Based on the Law of Similars, or "like cures like," a specific dilution of a substance would quickly and safely remove the symptoms the same substance was capable of evoking.

Homeopathic provings also show how higher potencies cause deeper healing. Expanding this practice, Dr. King developed multi-ingredient, high-potency formulations that act upon the central nervous system, awakening the body's natural ability to heal itself physically, mentally, and emotionally.

We also have a professional line of homeopathic products for pets!
