tca energy formula

Supplement Facts

Serving Size 1 Capsule

Servings Per Container 30/60

Amount Per Serving		% Daily Value
Vitamin E (as d-alpha tocopheryl succinate)	15 IU	50%
Thiamine (as thiamine hydrochloride)	10 mg	667%
Riboflavin	10 mg	588%
Niacin (as niacinamide)	15 mg	75%
Pantothenic Acid (as calcium pantothenate)	10 mg	100%
Magnesium (as magnesium citrate)	10 mg	3%
Alpha-Ketoglutaric acid	75 mg	†
L-carnitine tartrate	20 mg	†
Alpha-Lipoic acid	10 mg	†

† Daily Value not established

OTHER INGREDIENTS: CELLULOSE & WATER

RECOMMENDED USAGE:

Take one (1) capsule two times daily with food. Usage may be increased according to need as directed by health care practitioner.

Available in bottles of 30 and 60 capsules.

NO FILLERS/NON-ALLERGENIC

Supports healthy energy production and cellular metabolism*

The Tri-Carboxylic-Acid (TCA) cycle plays numerous pivotal roles in overall cellular metabolism. For instance, the TCA cycle is the first biochemical cycle whose purpose is to generate intermediate molecules used in the electron transport chain to maximize energy production. This simple process of oxidation actually accounts for about two-thirds of our total oxygen consumption. Use this formula for mitochondrial energy support such as physical activities requiring endurance.*

- **Vitamin B and More.** This formula includes Thiamine (B1), Riboflavin (B2), Niacin (B3), and Pantothenic Acid (B5) as well as Vitamin E and Magnesium with L-carnitine, Alpha-lipoic acid, and Alpha-ketoglutaric acid.
- **Energy Support.** TCA Energy Formula™ includes a synergistic formulation to enhance ATP production by providing essential nutrients for the Krebs Cycle Intermediates.*
- **Did You Know?** The TCA cycle and the electron transport chain are closely related. For best results, take TCA Energy Formula™ together with Electron Transport™.*

Health Benefits: Transformation's Professional Protocol TCA Energy Formula™ is a Vitamin B supplement designed to provide nutritional support to enhance energy production in the mitochondria, the "power house" of the cell.*
